

Anthony C. Berrios

19 VALLEY VIEW DR | (570)-903-0682 | BERRIOSA13@GMAIL.COM | [HTTPS://ANTHONYBERRIOS.COM/](https://ANTHONYBERRIOS.COM/)

From computer hardware, to software and web-based applications I have spent the last 4+ years gaining experience with web technologies like HTML, CSS, JavaScript, JQuery, React, RESTful APIs, and OOP languages like Java. I am an overall versatile performer who thrives in both small or large teams and slow or fast pace environments.

Experience

Software Developer

MPower Trading Systems, LLC Haverford, PA / June 2021 - Present

- Performed morning health checks of production environments, servers, microservices, and client app.
- Added and removed servers and services from our health check as needed.
- Experienced real world software development lifestyle practices using Atlassian Suite.
- Maintained, debugged, and added new features to our real-time trading software.
- Implemented UI design changes in both the login screen and main panels.
- Implemented new design changes to our in-house server scanner web application.
- Performed builds & deployments to our QA environments, as well as Production using Bamboo.
- Created documentation for myself and future developers to provide longevity to the company's codebase.
- Wrote and ran simple SQL queries to streamline everyday tasks.
- Attended and provided input during standups, code reviews, and client meetings.
- Assisted dev team in a large-scale live-brokerage integration.

Computer Technician

Self-Employed, Factoryville PA / July 2014 – May 2020

- Performed tests on customers, family, and friends, computers to insure system stability.
- Built custom computers from the ground up according to client requirements.
- Replaced hard drives and other computer components to extend the devices useability.

Projects

Personal Portfolio Website

- Created a portfolio website to share a little about myself and to show the projects that I have built. These projects can be found at my website here → anthonyberrios.com

Skills

Languages & Technologies

- JavaScript, CSS, HTML, Bootstrap, Bulma, Java, OCaml, Node.js, React.js, SQL, JQuery, MongoDB, Git, GitHub, Bitbucket, Express.js, Postman, Java Swing, Atlassian Suite (Jira, Confluence, Bamboo).
